RATIFIED RESULTS

LONGINES GRAN PREMIO LATINOAMERICANO AND LONGINES CUP 2018

This week, the French Laboratory of doping control, Laboratoire des Courses Hippiques, disclosed the results of the 10 samples shipped to be tested for doping, belonging to the winner and 4 runner ups of both Longines Gran Premio Latinoamericano and Longines Cup Clásico Diana.

All 10 samples resulted free from medication, and therefore the names of the winners and the final scoreboard of both races run on March 11th, are ratified.

OSAF is already making the relevant contacts to pay the prizes to the owners.

LONGINES GRAN PREMIO LATINOAMERICANO

5	URU	13	UNBRIDLED DANCER (ARG)	Hs. Bellevue	José P. Garcia	Carlos S. Méndez	Kenyon S.A.

This way, the path OSAF undertook back in 2016, where the samples of the prize winners of Longines Gran Premio Latinoamericano began being analyzed by laboratories certified by the International Federation, driven by an anti-doping spirit and aiming at a continuous improvement in the detection of forbidden substances in South America.

Currently, OSAF performs the test of both Longines Gran Premio Latinoamericano and Longines Cup in one of the 5 international laboratories counting with such support in the results of their analytical procedures.

We congratulate all contestants and winners.
