SOUTH AMERICAN HORSES AROUND THE WORLD

With the purpose of highlighting the quality of South American Thoroughbreds, OSAF has taken the initiative to compile the information and follow up on the horses bred in our region, which have run or are currently running in countries outside OSAF jurisdiction.

We would like to share with our readers the first part of the document - in the process of adjustment - which summarizes the performance of the 50 South American Thoroughbreds which have run in Group races in USA, Europe and Asia during the last 2 years.
