### FINAL RESULT

### LONGINES GRAN PREMIO LATINOAMERICANO 2017

Yesterday, the French Laboratory “Laboratoire des Courses Hippiques”, in charge of testing the samples of the competitors of Longines Gran Premio Latinoamericano (G1) 2017, informed OSAF about the results of the samples received after the race staged last Sunday 5th of March in Viña del Mar.

From this test, a positive result came up for the drug DIISOPROPYLAMINE, in the sample belonging to DEEP END (BRZ) which had finished in 4th place.

Given that the owner of this horse has discarded the option of opening Sample B, the official final marker of Longines Gran Premio Latinoamericano is:

Lº	Nº	THOROUGHBRED (Sire)				Jockey	Trainer	Owner/Stud
